

Dental Practice Monitor™

Powered by Sikka Technology

The **MUST HAVE** productivity tool of the decade!

Dental Practice Monitor is a **FREE**, sleek, new desktop monitor, powered by SIKKA Software, the industry leader in practice intelligence and optimization technology. Now you can quickly and easily see vital practice statistics and get expert advice with a single click:

- "Ask an Expert" expert advice on demand
- Production and number of new patients
- New patients compared to existing patients
- Accounts receivables analysis
- National practice averages
- And so much much more...

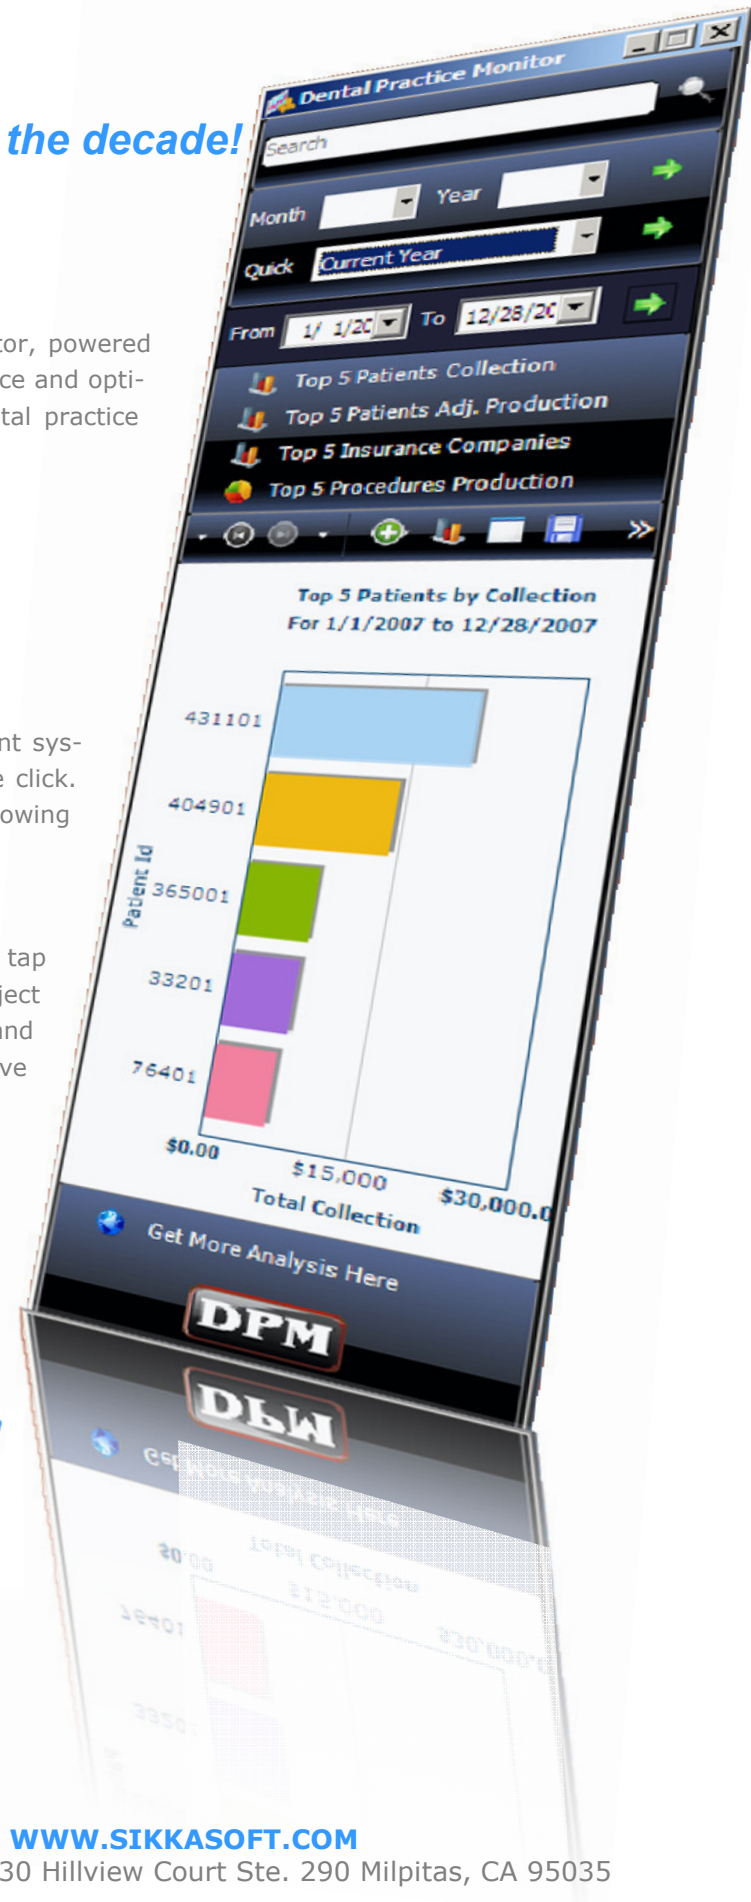

Dental Practice Monitor works with your practice management system to extract all kinds of valuable information with a single click. You can even ask a question and have it answered by our growing panel of national experts. And the best part is that it is **ABSOLUTELY FREE!**

Unleash the power of your practice management system and tap into the insight of experts on almost any dental practice subject you can imagine. Go to dentalpracticemonitor.com and download this rapidly evolving desktop appliance. Once you've used it... you won't practice without it.

Reads data from most US and Canadian dental management systems with no manual input required.

...and it's Free!
