

Download and install appointment synchronization and benchmarking application for iPhone and iPod.

# Step 1.

Download and install DPM from <http://www.sikkasoft.com/eng-us/dpmsignup.aspx> This is a FREE application.

Download and install Sikka iDPM from [AppStore on your iPhone / iPod Touch](#). This is a FREE app.

\*\*\* Please make sure DPM and iDPM email ids are the same\*\*\*

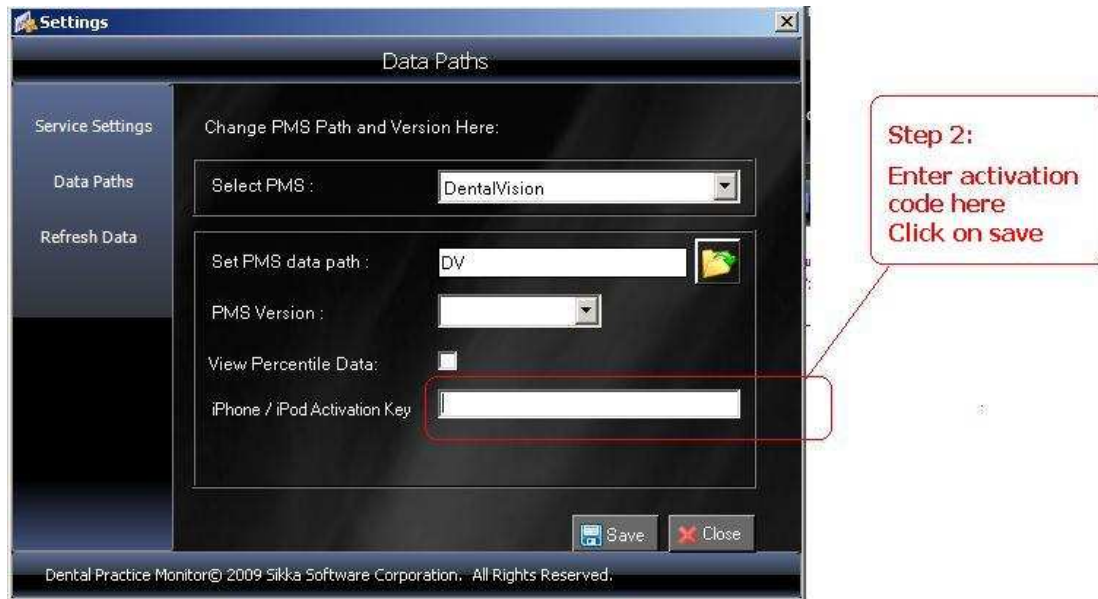

# Step 2.

In DPM select Settings button

# Step 3.

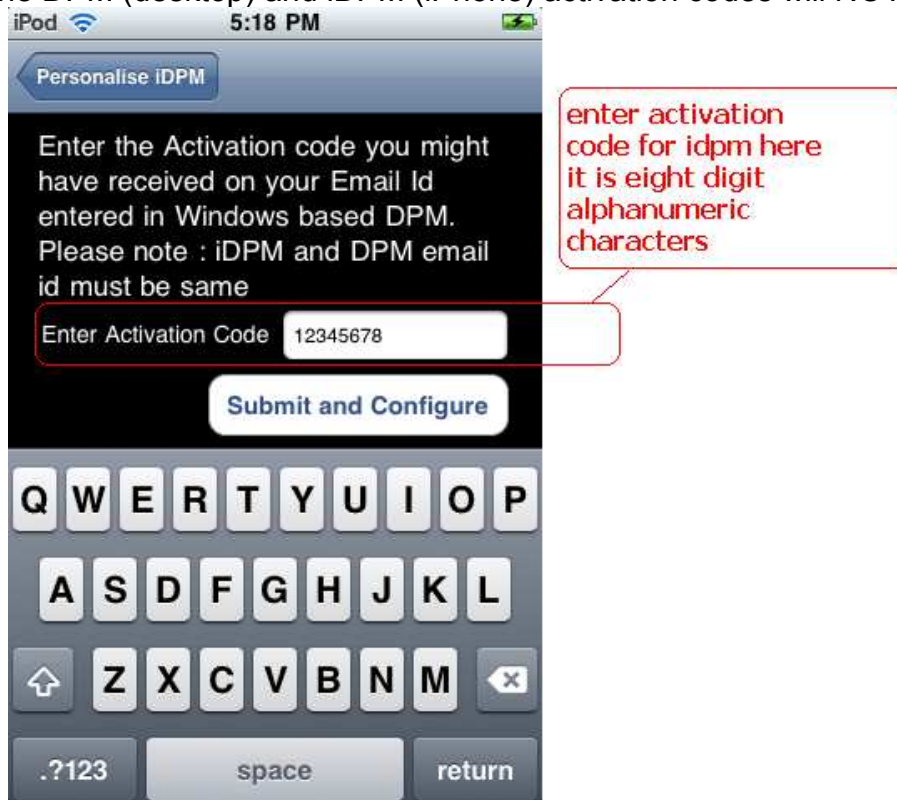

Enter activation code you receive by email

# Step 4.

In iDPM Tap on Personalize button. Enter activation Code in iDPM.

Note the DPM (desktop) and iDPM (iPhone) activation codes will NOT be the same.

# Step 5.

If activation codes match successfully you can download appointments data

# Step 6.

Select date to view the appointments. That is it!!!! You now have access to your appointments and also patient details.
